**GEORGETOWN CHAMBER TO SPONSOR MANUFACTURING DAY 2019**  
*120 career and technical education students from Georgetown ISD to participate in  
Manufacturing Day on October 4.*

**GEORGETOWN, TX, September 27, 2019 –**

The Workforce Development Alliance of the Georgetown Chamber of Commerce is proud to partner with the City of Georgetown and Georgetown ISD in sponsoring Manufacturing Day 2019 on Friday, October 4, for Career and Technical Education students in Georgetown ISD.

Manufacturing Day is a celebration of modern manufacturing and highlights manufacturers in Georgetown.

Georgetown has a relatively high concentration of manufacturing employment, representing nearly 11 percent of jobs. Forecasts show a 30 percent growth in employment in advanced manufacturing by 2021, according to the City's recent analysis.

Manufacturers participating in the 2019 Manufacturing Day include AirBorn, Chatsworth Products, Radiation Detection Company, STI International, Schunk Xycarb Technology, TASUS Texas, TECO Westinghouse, and Texas Speed & Performance. About 120 students will tour the companies in small groups.

With an increasing demand for highly skilled professionals in the manufacturing sector, Manufacturing Day is a way to educate students about manufacturing careers and opportunities available, to underscore the economic and social significance of manufacturing and to inspire a new generation of manufacturers in Georgetown.

The Georgetown Chamber of Commerce is an independent 501(c)6 nonprofit organization with a mission to facilitate economic success for our community through advocacy, education and collaboration.
