

## **Ribbon Cutting Procedures During COVID-19**

**With your health and safety in mind, the following are the actions the Chamber is taking for our ribbon cuttings:**

- \*Chamber staff will be wearing a mask covering their nose and mouth
- \*Event attendees are required to also wear a mask covering their nose and mouth
- \*Ribbon cutting ceremony and photo will take place outside.
- \*Only those wearing a mask will be allowed to be in the ribbon cutting photo.
- \*Businesses have the option to have an additional, maskless photo taken of just the business's employees and/or family.
- \*Any food offered needs to be pre-packaged to avoid common touchpoints.
- \*Tours of the inside of the building may be offered by the business. It is up to the business/organization to manage attendees so as to stay within occupancy limits.
